YOU TO THE WORKSHOP ON 23 APRIL 2024 @ HOSPITALITY  
LOUNGE 2 (HALL 2)***

ASIAN SEWERAGE TRAINING, RESEARCH & INNOVATION CENTRE OF EXCELLENCE

# 23-25 APRIL 2024

Kuala Lumpur Convention Centre, Malaysia

## TARGET AUDIENCE

- Wastewater companies within Asian Region
- The water related NGOs
- Academicians
- Environmental and Engineering Consultants

## LEARNING OBJECTIVE

- Discover how Malaysia has utilized from non-mechanized to one of South East Asia's biggest sewage treatment plants. These economically conscious technology has help driven the need for people and environmental protections towards water and climate change resilience. As Malaysians, we are fortunate to explore a variety of treatment processes using different technologies.
- The session is a great platform to share, discuss and address the challenges in logistic and distribution of sludge disposal sites, in addition to research development initiatives for the climate change resilience. The training will provide explanation and share ideas of sludge conveyance, sludge treatment facility, sludge disposal monitoring and sludge reuse processes that has been implemented and practice by the National Sewerage company, Indah Water Konsortium.

9.00am	Registration of Participants
9.30am	Wastewater Reuse Initiative From A Circular Economy Perspective And Potential Risks
10.45am	Overview of Sludge Disposal Monitoring in Malaysia
12.00pm	Sludge Recycling Towards Profitability and Sustainability Efforts
